

The Garden Classroom

Summer Term 2018

Dinosaurs!

The children learnt about all things dinosaurs for the first half term! We used non-fiction books and web articles to answer questions we wanted to find out. We also used our knowledge of dinosaurs to write stories and poems.

Just when we thought it couldn't get better, we had dinosaur eggs delivered to school! We got more than we bargained for, however, when the eggs hatched and the dinosaurs escaped! We hunted for clues and warned the village by handing out Lost Dinosaurs posters. We are hoping they are now safe and back with the Jurassic Team...

A Morning with the Bee Keepers

Marston had a big task this term. We were invited to display work at the RHS flower show at Chatsworth and so the 'bee project' was in full swing!

The children engaged in fun bee arts and craft activities in order to prepare for the show. We also had an exciting visit from some bee keepers who taught us all about bees. During our visit from the bee keepers we were able to make candles from bee wax, try on bee keepers' outfits and learn about different pollen colours.

RHS Chatsworth Flower Show

After the half term break we were lucky enough to attend the RHS Flower Show at Chatsworth. We enjoy walking around the stalls, seeing lots of different flowers, learning more about bees and even having a go on a 4D experience ride!

Sports Day!

This year we had our first Sports Day with our extended family from Long Lane. We particularly enjoyed this event because our teams included children from both Marston and Long Lane.

Here's what the children had to say:

I liked sports day because we got to see our friends from Long Lane again.

I liked racing new people.

My favourite race was the tunnel ball because it was funny and we worked as a team.
