

Writing		
Narrative	Practise and rehearse sentences and stories, gaining feedback on the overall effect and the use of standard English.	All living things
Write stories set in places pupils have been.	Listen to and tell stories often so as to internalise the structure.	Look at reproduction in plants and animals, and human growth and changes.
Write stories that contain mythical, legendary or historical characters or events.	Debate issues and formulate well-constructed points.	Look at the effect of diet, exercise and drugs.
Write stories of adventure.		Chemistry
Write letters.	Mathematics	Materials
Write plays.	Count and calculate in increasingly complex contexts, including those that cannot be experienced first hand.	Examine the properties of materials using various tests.
Write stories, letters, scripts and fictional biographies inspired by reading across the curriculum.	Rigorously apply mathematical knowledge across the curriculum, in particular in science, technology and computing.	Examine changes to materials that create new materials that are usually not reversible.
Non-fiction	Deepen conceptual understanding of mathematics by frequent repetition and extension of key concepts in a range of engaging and purposeful contexts.	Physics
Write instructions.	Explore numbers and place value so as to read and understand the value of all numbers.	Light
Write recounts.	Add and subtract using efficient mental and formal written methods.	Look at sources, seeing, reflections and shadows.
Write non-chronological reports.	Multiply and divide using efficient mental and formal written methods.	Explain how light appears to travel in straight lines and how this affects seeing and shadows.
Write arguments.	Use the properties of shapes and angles in increasingly complex and practical contexts, including in construction and engineering contexts.	Sound
Poetry	Describe position, direction and movement in increasingly precise ways.	Look at sources, vibration, volume and pitch
Learn by heart and perform a significant poem.	Use and apply measures to increasingly complex contexts.	Earth and space
Write haiku.	Gather, organise and interrogate data.	Look at the movement of the Earth and the Moon.
Write cinquain.	Understand the practical value of using algebra.	Explain day and night.
Reading	Science	Working Scientifically
Read and listen to a wide range of styles of text, including fairy stories, myths and legends.	Biology	Across all year groups scientific knowledge and skills should be learned by working scientifically. (This is documented in the Essentials for progress section.)
Listen to and discuss a wide range of texts.	Plants	Art & Design
Learn poetry by heart.	Look at the function of parts of flowering plants, requirements of growth, water transportation in plants, life cycles and seed dispersal.	Use experiences, other subjects across the curriculum and ideas as inspiration for artwork.
Increase familiarity with a wide range of books, including myths and legends, traditional stories, modern fiction, classic British fiction and books from other cultures.	Evolution and inheritance	Develop and share ideas in a sketchbook and in finished products.
Take part in conversations about books.	Animals and humans	Improve mastery of techniques.
Learn a wide range of poetry by heart.	Look at the human circulatory system.	Learn about the great artists, architects and designers in history.
Use the school and community libraries.	Evolution and inheritance	Computing
Look at books with a different alphabet to English.	Look at resemblance in offspring.	Design and write programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts.
Read and listen to whole books.	Look at differences in offspring.	Use sequence, selections and repetition in programs; work with variables and various forms of input and output; generate appropriate inputs and predicted outputs to test programs.
Communication		Use logical reasoning to explain how a simple algorithm works, detect and correct errors in algorithms and programs.
Engage in meaningful discussions in all areas of the curriculum.		
Listen to and learn a wide range of subject specific vocabulary.		
Through reading identify vocabulary that enriches and enlivens stories.		
Speak to small and larger audiences at frequent intervals.		

Understand computer networks including the internet; how they can provide multiple services, such as the world wide web; and the opportunities they offer for communication and collaboration.

Describe how internet search engines find and store data; use search engines effectively; be discerning in evaluating digital content; respect individuals and intellectual property; use technology responsibly, securely and safely.

Select, use and combine a variety of software (including internet services) on a range of digital devices to accomplish given goals, including collecting, analysing, evaluating and presenting data and information.

Design & Technology

Design

Use research and develop design criteria to inform the design of innovative, functional, appealing products that are fit for purpose, aimed at particular individuals or groups.

Generate, develop, model and communicate their ideas through discussion, annotated sketches, cross-sectional and exploded diagrams, prototypes, pattern pieces and computer-aided design.

Make

Select from and use a wider range of tools and equipment to perform practical tasks, such as cutting, shaping, joining and finishing, accurately.

Select from and use a wider range of materials and components, including construction materials, textiles and ingredients, according to their functional properties and aesthetic qualities.

Evaluate

Investigate and analyse a range of existing products.

Evaluate their ideas and products against their own design criteria and consider the views of others to improve their work.

Understand how key events and individuals in design and technology have helped shape the world

Technical knowledge

Apply their understanding of how to strengthen, stiffen and reinforce more complex structures.

Understand and use mechanical systems in their products, such as gears, pulleys, cams, levers and linkages.

Cooking and nutrition

Understand and apply the principles of a healthy and varied diet.

Prepare and cook a variety of predominantly savoury dishes using a range of cooking techniques.

Understand seasonality and know where and how a variety of ingredients are grown, reared, caught and processed.

Geography

Locate the world's countries, with a focus on Europe and countries of particular interest to pupils.

Identify key geographical features of the countries of the United Kingdom, and show an understanding of how some of these aspects have changed over time.

Understand geographical similarities and differences through the study of human and physical geography of a region or area of the United Kingdom (different from that taught at Key Stage 1).

Describe and understand key aspects of:

- physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes and the water cycle

- human geography, including: settlements, land use, economic activity including trade links and the distribution of natural resources including energy, food, minerals and water supplies.

Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied.

Use the eight points of a compass, four-figure grid references, symbols and keys (including the use of Ordnance Survey maps) to build knowledge of the United Kingdom and the world.

Use a wide range of geographical sources in order to investigate places and patterns.

Use fieldwork to observe, measure and record the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs and digital technologies.

History

A study of a theme in British history.

A non- European society that contrasts with British history chosen from:

- Early Islamic Civilization
- Mayan Civilization
- Benin.

History of interest to pupils.

Language

In the chosen modern language:

- Speak
- Read
- Write.

Music

Play and perform in solo and ensemble contexts, using voice and playing instruments with increasing accuracy, control and expression.

Improvise and compose music using the inter-related dimensions of music separately and in combination.

Listen with attention to detail and recall sounds with increasing aural memory.

Use and understand the basics of the stave and other musical notations.

Appreciate and understand a wide range of high-quality live and recorded music from different traditions and from great musicians and composers.

Develop an understanding of the history of music.

Physical Education

Play competitive games, modified where appropriate, such as football, netball, rounders, cricket, hockey, basketball, badminton and tennis and apply basic principles suitable for attacking and defending.

Take part in gymnastics activities.

Take part in athletics activities.

Perform dances.

Take part in outdoor and adventurous activity challenges both individually and within a team.

Swimming and water safety: take swimming instruction either in Key Stage 1 or Key Stage 2.

Religious Education

Study the beliefs, festivals and celebrations of Christianity.

Study at least two other religions in depth. Choose from Buddhism, Hinduism, Islam, Judaism or Sikhism.
